# Village Program **UPDATES**

Since the printing of the program, we have made the following updates to the indicated Village education schedules. If there are no updates listed, then the originally published schedule remains accurate.

## MONDAY, JAN. 19

### PESTICIDE RECERTIFICATION (CATEGORIES A, E, & P)

**UPDATED TIME:** 1:45pm – 4:00pm

#### Sprayer & Equipment Calibrations

Speaker: Kyle Narveson, Rainbow Treecare

In this session, attendees will learn the procedures for calibrating equipment (backpack, ride-on, truck mounted sprayers, soil injections, deep root fertilization, etc.). The session will focus on how to analyze and select the proper operating speed, flow rate, and volumes for a given area as well as addressing the risk of drift and off target applications.

3:15pm – 4:00pm

#### **ADDED SESSION: Practical IPM Solutions for Healthy Turfgrass**

Speaker: Kristie Walker, University of Minnesota - Crookston

This seminar explores Integrated Pest Management (IPM) in turfgrass as a comprehensive, sustainable strategy that integrates cultural, biological, mechanical, and chemical tools to effectively manage pests while reducing environmental and economic impacts. Emphasis will be placed on sound turf selection and cultural management practices such as soil health, mowing, irrigation, and fertilization, along with systematic monitoring to identify pests accurately and make informed, threshold-based management decisions.

## TUESDAY, JAN. 20

### Golf

1:00pm – 2:00pm

#### **ADDED SESSION: UMN Winterkill and WinterTurf Updates**

Speaker: Dominic Petrella, University of Minnesota

This session will focus on how turfgrasses respond to winter related stresses and how they can be managed. We will focus on up-to-date research from the WinterTurf research project led by the University of Minnesota.

**UPDATED TIME:** 2:00pm – 3:00pm

#### **Sustainable Strategies for Reducing Greenhouse Gas Emissions in Turfgrass Management**

Speaker: Kristie Walker, University of Minnesota-Crookston

This talk will equip turfgrass managers with sustainable cultural strategies for nitrogen fertilization, soil cultivation, irrigation practices, and even tree management to support healthier, more resilient turfgrass systems.

### SPECIAL THANKS TO THESE NORTHERN GREEN VILLAGE SUPPORTERS:

GARDEN CENTER/GROWER

LANDSCAPE/HARDSCAPE CONTRACTOR

TURF, GROUNDS,  
& SNOW

**THURSDAY,  
JAN. 22**

**Spanish Track**

**Jueves, 22  
de enero**

***Cursos de Español***

**UPDATED SPEAKERS:**

The following are corrected speaker names for this track.

- José Genel, Landscape Renovations
- Luis Elizondo, Bailey Nurseries, Inc.

**PONENTES ACTUALIZADOS:**

A continuación se muestran los nombres corregidos de los ponentes de esta sesión.

- José Genel, Landscape Renovations
- Luis Elizondo, Bailey Nurseries, Inc.

**THURSDAY,  
JAN. 22**

**Tree Care/Arborist**

10:00am – 10:50am

**Sprayer & Equipment Calibrations**

**UPDATED SPEAKER:** Dan Gjertson, University of Minnesota

There is a growing list of considerations when making the decision to plant trees and shrubs in the landscape. Our changing climate is going to throw wrenches, hammers, and the occasional axe at our plans. To be successful, we will need a mighty toolbox of options to prepare for and manage our plants as our climate changes. This presentation will focus on what to consider, identify solutions for making plant selections, and provide thinking that is outside – but still pressed up against – the toolbox.
